For Mac Which Button To Close A App

To do so, highlight the app you want to close, click the X button in the upper-left corner of the Activity Monitor window and then click the Force Quit button. With Force Quit, you receive no such such warning and may lose any unsaved changes.

- 1. which button closes the wordpad window
- 2. which button closes the ms word screen
- 3. which button to close in a suit

This opens the Force Quit Applications window, which provides a convenient list of all of your open applications, denoting any that are not responding.. Then again, if an app is not responding, you may have no other recourse than to use a bit of force to close it.

which button closes the wordpad window
